Chapter 16 JavaFX UI Controls

Program # 1 (Compare loans with various interest rates) Rewrite Programming Exercise
5.21 to create a GUI, as shown in the following figure. Your program should let the
user enter the loan amount and loan period in the number of years from text fields, and
it should display the monthly and total payments for each interest rate starting from 5
percent to 8 percent, with increments of one-fourth, in a text area.

🔃 Loan GUI			_		×
Loan A	mount 1500000	Number of Years 5	Show Table		
Interest Rate	Monthly Payment	Total Payment			â
5.0	28306.85	1698411.02			
5.25	28478.97	1708738.54			
5.5	28651.74	1719104.59			
5.75	28825.15	1729509.13			U
6.0	28999.2	1739952.13			
6.25	29173.89	1750433.55			
6.5	29349.22	1760953.33			
6.75	29525.19	1771511.45			
7.0	29701.79	1782107.86			
7.05	2022004	4700740.50			~

Remark: Exercise 5.21 = TestLoan.java
